

PALLET RACKING

Stackit's heavy duty, standardised pallet racking represents excellent value for money and can even be adapted for outdoor storage.

- standardised storage
- excellent value for money
- personalised service & fast turnaround

Keep your warehouse neat and orderly with Stackit pallet racking. Our industrial strength system offers standardised storage suitable for large quantities of palletised goods. We offer racking in a range of heights from 2400mm right up to 6000mm high, with a standard bay length of 2700mm to fit two pallet widths. With a weight limit of 2 tonnes per shelf you can store a range of goods without fear of overloading.

Our pallet racking is a well-finished, industrial grade product with a very long lifespan. Because we use standard sizing, our product can be used in conjunction with existing pallet racking by other brands. Of course, when you choose Stackit you get the advantage of personalised service including a site visit to take measurements and ensure you're getting exactly the racking you need. Together with our fast turnaround and expert knowledge, we can offer you the very best in both product and service.
