

DOUBLE RIVET SHELVING

- 
- Simple boltless assembly
 - Shelves adjustable in 25mm increments
 - Powder coat finish
 - Heavy duty 50x50mm post

The Double Rivet shelving simply clips together using a rivet and keyhole system. The final result is very robust – once the protruding rivets are fitted into place they are snugly locked in and will need a good knock from the underside to remove. While we've simplified the assembly, we've retained the adaptability of our popular Stackit Series. Our DR Series shelving is made from durable powder coated steel and MDF boards, an industrial quality product which comfortably holds up to 100kg per shelf. With a smart 'bullet grey' finish, this product looks fantastic around the office or in a commercial environment. It is the perfect size for storing files and boxes and also makes an excellent home garage shelving system.

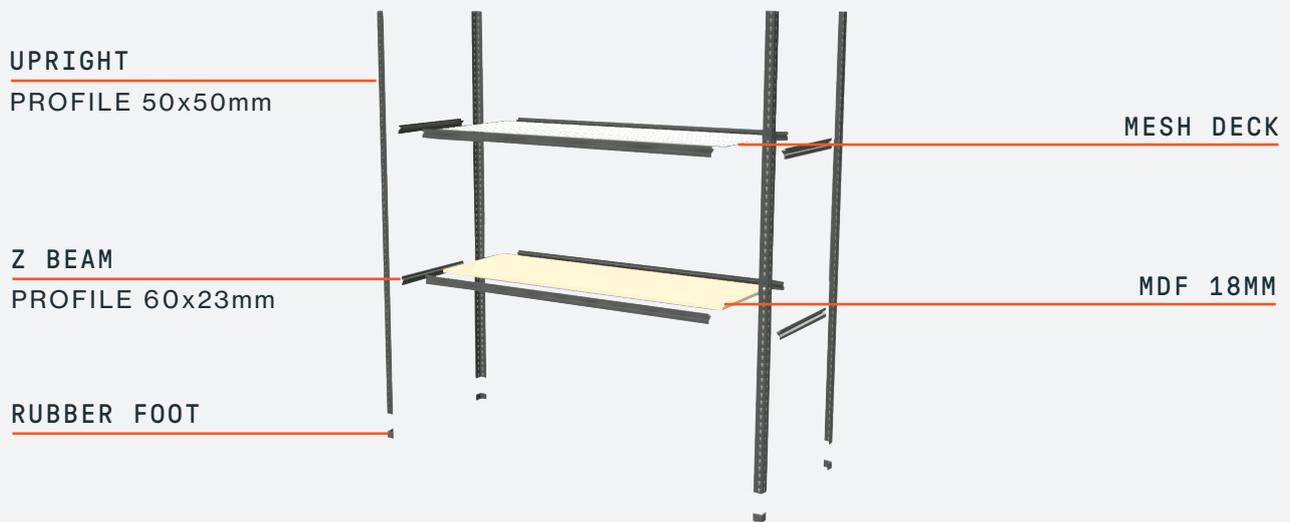

DOUBLE RIVET SHELVING SPECIFICATIONS

UPRIGHT HEIGHT	UPRIGHT DEPTH	BEAM LENGTH	FINISH	CAPACITY
1800, 2400mm	300, 450, 600, 900mm	300, 450, 600, 900, 1200, 1800mm	Powder coat	100kg per level

Custom sizes, colours and capacity available on indent order.

Shelf capacities are indications only. The actual capacity may vary. An engineer's assessment of your shelf configuration and ground conditions are required to establish actual capacity. Please contact us if you wish to obtain an assessment.
