

# STACKIT SERIES SHELVING

- 
- Modular
  - 3 lug beam connection
  - Fast assembly
  - Bolt down feet provided
  - Powder coat finish
  - Height adjustable shelf levels

The Stackit Series shelving system is highly regarded across a broad range of industries for its unmatched industrial strength, modularity and fast assembly time. Implementing warehouse shelving in your workspace has many advantages. For one, warehouse shelving increases your storage capacity as you are able to take things off the floor and utilize your often under-utilized vertical space as well. In turn by storing your products on shelves as opposed to the floorspace, you reduce the hazard of somebody tripping over something stored on the floor. Additionally, warehouse shelving enhances workplace efficiency by optimizing product organization, resulting in smoother running of operations.

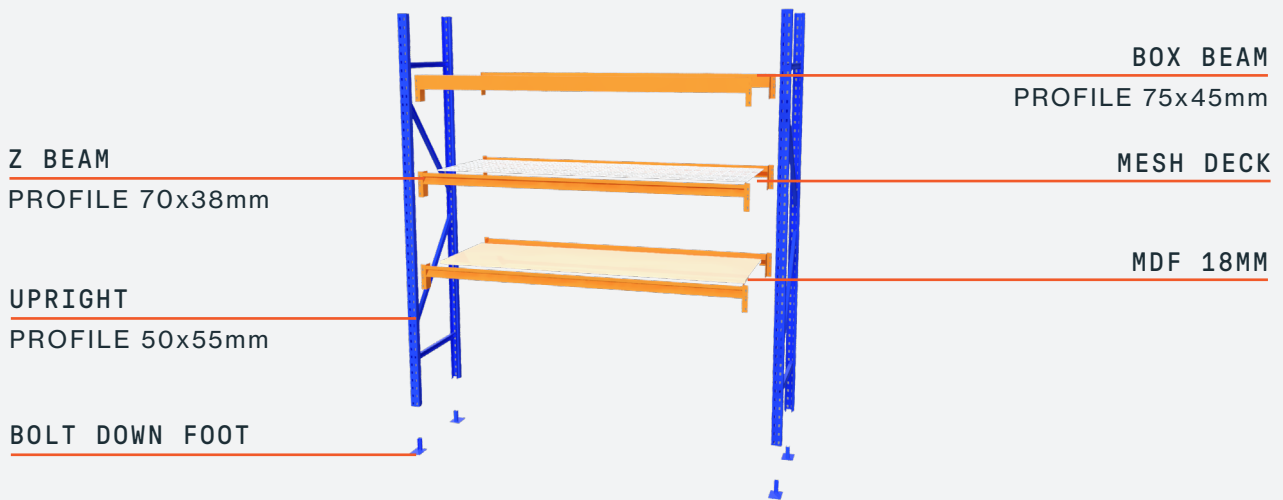

# STACKIT SERIES SHELVING SPECIFICATIONS

UPRIGHT HEIGHT	UPRIGHT DEPTH	BEAM LENGTH	FINISH	CAPACITY
1800, 2100, 2400, 3000mm	450, 600, 900mm	1000, 1500, 2000mm	Powder coat	300kg per level

Custom sizes, colours and capacity available on indent order.

Shelf capacities are indications only. The actual capacity may vary. An engineer's assessment of your shelf configuration and ground conditions are required to establish actual capacity. Please contact us if you wish to obtain an assessment.
